The W. C. T. U. Has a Theory

Recipe for a Fight

Greenville (Miss.) Democrat-Times says that the W. C. T. U. is going to present a report which will make liquor the scapegoat for the fall of France by emphasizing, first, analyses of French weakness, blaming excessive liquor consumption, and second, newspaper dispatches showing the temperance of German soldiers.

But, in the name of truth, the W. C. T. U. ought to kill that report before it is ever issued. France was destroyed because it became an idle nation. An idle nation may be a drunken nation—but idleness alone is enough to destroy her.

And anybody who knows anything about the Germans knows that they aren't prohibitionists.

Really, says the Texas Weekly:

"It was the fifth column, not the fifth drink, that laid France under the table."

And this, from William Feather's Imperial Type Metal magazine:

"Leaving our bed late one Sunday morning, we went into an adjoining room to gather up the Sunday paper.

"Anything in the paper?" we asked, pleasantly.

"Oh my, yes," came the answer, calculated to tease us. "It has some dandy recipes!"

"Right there we have a fundamental difference between men and women. Men don't like food prepared in new ways, and women have no enthusiasms for the old ways."

"Women want change, men want stabilization."

"We can think of thirty items of food on which most men would be glad to subsist for the rest of their lives. Women have invented thirty different ways of serving lobster, none of which is an improvement on the right way."

Washington — (P) — The Agriculture Department forecast this year's cotton crop Monday at 12,772,000 bales of 500 pounds gross weight and based on conditions prevailing September 1.

The crop forecast of 1,429,000 bales a month ago was based on August 1 conditions.

The area of cotton for harvest this year was placed at 24,406,000 acres, compared with 23,928,000 last year and the 1928-38 ten year average is 31,235,000.

The condition of crops September 1 was 74 per cent normal as compared with 72 per cent a month ago and 70 per cent for a year ago and 62 per cent is the 10 year average.

A yield of 250.7 pounds to the acre was indicated from the Sept. 1 condition, compared with 222.3 pounds a month ago and 237.3 pounds last year and 198.1 pounds is the 10 year average.

The forecast for Arkansas is 2,103,000 acres for harvest with a condition of 82 per cent of normal, an acre yield of 330 pounds and production of 1,449,000 bales.

Hereford Herd

Twenty-five head of Herefords from the R. R. Cornelius farm arrived at the fair park Monday morning for exhibition during the Hempstead County Free Fair this week.

Tuesday's Parade

Parade entries will convene at 2:30 p. m. Tuesday on second street near the fire station, then march to First National bank, then right on Main to the MOP depot, then left to Hotel Barlow, then left on Elm to Citizens bank, then left on Second to the old Arkansas Bank building, then right on Main to Fourth street, then right on Fourth to Fair park.

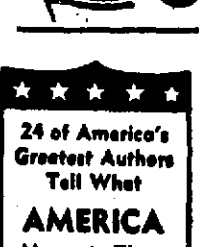

The committee announced that the parade would have to observe the traffic light at Third and Main streets.

The Cornelius herd consists of eight brood cows, sixteen calves and a herd bull. These Herefords are among the finest in southwest Arkansas.

Other herds that will exhibit Herefords include A. W. Blorseth, Charley Baker, J. L. Gooden and M. S. Bates of Hope, Mr. Smith of Painesville and probably others. L. C. Somerville of Hope will exhibit animals from a

OUR COUNTRY

Stephen Vincent Benet Tells of Some Things He Likes to Think About America

First of 24 articles on "Our Country," written exclusively for NEA Service by the nation's most famous authors.

By STEPHEN VINCENT BENET

Author of "John Brown's Body," "Spanish Bayonet," "A Book of Americans,"

I like to think about some things when I think about America.

I like to think about a certain New Hampshire Yankee. He was a strong Union man, but he died in 1862, when he couldn't tell how the Civil War was going to come out. But he had carved on his tombstone, "I dedicate this side of my monument to the sacred cause of Liberty and Union. May they endure and prosper forever." He might be dead, but he's still here, and he wanted people to know where he stood. You can find this tombstone still, though he wasn't a famous man.

I like to think about the Iowa woman who embroidered a banner for the state dairy contest. She did a good job on it. She embroidered a cow in a pasture and underneath it she put "Our liberties we prize and our rights we will maintain." That was what she meant and so she said it. It didn't seem incongruous to her to talk about cows and liberty on the same banner. Maybe she was right.

American history isn't just famous names and gaudy trappings. It isn't merely the great men, though we have had great men. It is a people's history—the history of thousands and millions of ordinary men and women, come from all over the world or born in the land, who tried to work out a system where people could live free, worship freely, make their own laws instead of having them handed down from a ruler, and in general, stand up on their own hind legs, and because it is a people's history, there is no other history quite like it.

We've had crooks and thieves, big and little. We've made mistakes, big and small. But there never has been a time when we—all of us—were content to sit quiet under injustice. There never has been an injustice in this country that some Americans haven't gotten up and yelled about, fought, protested, gone to jail about, lived and died to fight. That's sometimes forgotten.

Now we are challenged and our way of life is challenged. It is challenged because we are a democracy. It is challenged because, for all our decisions, we have riches, as a nation. It is challenged because we are, potentially, the most powerful democracy in the world. The event has come upon us so abruptly, it remains hard for us to realize it. Within months, we have seen free nations snuffed out like candles. Within weeks we have pledged to arm ourselves as we have never armed in our long history. And that must be done.

Yet there is another armament—an armament of the mind. It is not enough for us to sing "God Bless America" and wear little flags on our coat lapels. Those things are symbols—they are only of value when they express an inner and positive faith. It is not

enough for us to look for Fifth Columnists under the bed or to say that of course democracy will survive because it always has. Democracy never was handed anybody on a platter. It was brought about by the will and action of the people—the common people. It was brought by their faith and their hope, and their long endurance, very often against great odds. It is not a negative virtue but a fighting faith.

Without bluster as without panic, but with deep resolution, we must go ahead. We must look in our minds and our hearts and discover what certain words we have largely taken for granted really mean to us. For, unless they do mean something to us, our cause is already lost. You cannot arm without hope, or defend a cause or a nation without belief. You cannot pass on to your children what you do not believe in yourself.

I am not asking for the patriotism of the jingo or even for a return to "the old rugged virtues." People who want to go back to "the old rugged virtues" generally want them for someone else. But we are free men and women—not the hypnotized serfs of a slave state.

We have the power of thought and action and decision. We must use those powers now and use them without stint or measure. We must make freedom as living a thing to us as it was to the men who founded this republic and this democracy. We must have union. For the issue is not the horror of war or the blessing of peace. The issue is not a third term for Mr. Roosevelt or a first term for Mr. Willkie. The issue is whether we mean to stay a free people and hand that freedom on.

Our liberties we prize and our rights we will maintain. Those are simple words but they mean business. It is time we said them again.

Carl Carner tells why Old Bill Dock, like Jonathan Harrington, is one of his American heroes, in the next article of this series on "Our Country."

Patriotic Play to Have Local Cast of 300

Will Be Presented Tues., Wed., Thurs., Nights of Free Fair

Under a natural canopy of stars and enlaid on a brilliantly lighted and especially contrived stage with colorful costumes and painted scenery, the stupendous pageant, "America on Parade," depicting the history of the Spanish King Ferdinand and Queen Isabella, will highlight the Hempstead County Free Fair on Tuesday, Wednesday and Thursday nights, Sept. 10-11-12.

Ghosts of other days will live again in the persons of their descendants and the spectacle of the sturdy bands of people, rebellious of religious persecution in their own homeland and seeking a foothold in a new and strange continent, is a stirring drama of vast historical significance.

More than 300 people have been rehearsing for the past three weeks under the direction of Miss Martha Jean Robinson, of the John B. Rogers Producing Co. All part shave now been perfected, and the pageant is to be staged at 8 p. m. promptly each evening.

Wilson Files Contest on Luck for Hempstead County Judge's Office

Names of the 188 Voters Whose Legality Is Challenged

John L. Wilson over the week-end formally filed in Hempstead circuit court his contest of the county judge's election, in which the official canvass showed Fred A. Luck winner by 2,162 to 2,153.

Mr. Wilson through his attorneys, Steve Carrigan of Hope and Steel & Steel of Nashville, charged that Mr. Luck "was not a duly qualified elector of Hempstead county at the time of said primary election by reason of the fact that he had failed to pay his poll tax at the time and in the manner as prescribed by law, and that the defendant, Fred A. Luck, was not entitled to have his name printed upon the official ballot as a candidate for county and probate judge by reason of the fact that he had failed to file his corrupt practice act pledge, and his party loyalty pledge at the time, at the place, and in the manner as prescribed by law, and the rules of the Democratic party."

188 Voters Challenged

Mr. Wilson challenged the legality of 185 votes which he said were cast for Mr. Luck in seven county boxes, and three absentee votes. The boxes are as follows:

Ozan, Stephenson, Saratoga, Union, Hope Ward One-A, Washington Box One and Washington Box Two.

The contest suit charges that the 185 persons who allegedly voted illegally had either failed to assess and pay their poll tax, or were disqualified for failure to comply with the residence rule.

Mr. Luck through his attorney, John P. Vesey of Hope, Monday denied Mr. Wilson's charges. Attorney Vesey, who has not yet completed a formal answer to the suit, told The Star that Mr. Luck was a duly qualified candidate and that the voters challenged by Mr. Wilson were legal voters.

Wilson's Affidavit

Mr. Wilson's contest suit was supported by an affidavit signed by 23 persons, as follows:

John L. Wilson, E. G. Hodnett, Van Boyce, Lewis C. Yocum, Seth Crews, J. S. Mayo, J. A. Porterfield, Herbert Lewis, O. H. Ainsworth, Leland Hollis, L. A. Stanley, H. M. Ross.

Henry Burt, Raymond Ross, V. W. Warmack, Thornton Burns, Arnold J. Middlebrooks, O. D. Middlebrooks, R. E. Long, Doly Hampton, Jeff A. Aeson, J. M. Arnold, J. J. Samuel.

Washington — (P) — The greatest fleet of fighting vessels ever put under contract at one time, including seven battleships and eight aircraft carriers, were ordered Monday by the Navy. Immediately after President Roosevelt signed a \$5,251,000 defense bill.

HIDE PARK — (P) — President Roosevelt signed Monday a \$5,251,000 appropriation bill carrying funds to help provide vital equipment for 2,000,000 fighting men and to expedite the construction of a two ocean navy.

Mr. and Mrs. K. G. Caplinger Jr., have returned from Smackover, where they attended the wedding of Miss Elizabeth Beirne and Jim Tom Caplinger. Mr. Caplinger served his brother-in-law as best man and K. G. Caplinger III was the ringbearer. Other guests from Hope included Miss Marjory Waddle, who was the maid of honor, and Mr. and Mrs. Ray Turner.

Miss Julia Lemley left Saturday from Texarkana for Ft. Smith, where she will be a member of the Ft. Smith High school faculty this year. She was accompanied by her sister, Miss Janet Lemley, who is rush chairman for the Chi Omegas at the University this year.

Miss Sara Jane Murphy is hostess to M. S. C. Club.

The first social meeting of the M. S. C. club was held on Saturday night on the lawn of the S. L. Murphy home on the Broadway. Brightly colored lights added a festive air to the occasion, and the evening was spent by the guests playing various games.

The members and their dates included: Miss Frances Bruner and Jack Crank, Miss Mary Jane Hearne and Sedford Bell, Miss Norma Jean Duke and Echols Locke, Miss Rose Myra Dossett and Billy Joe Rettig, Miss Marjory O'Neal and Jack Reece, Miss Mary Joe Dickinson and Dick Bennett, Miss Betty June Monts and Thomas Honeycutt, Miss Margaret Bush and James Roy Gates, Miss Billy James and W. T. Caldwell, Miss Nancy Joe Coleman, Miss Dorothy Ruth Dodds, Alfred Brannan, Kinard Young, Miss Sara Jane Murphy and Don Westbrook.

The hostess, assisted by her mother, Mrs. S. L. Murphy, served "cakes" and cookies to the guests during the evening.

Miss Evelyn Briant will leave Tuesday for Arkansas State Teachers' College in Conway. Her parents, Mr. and Mrs. Edgar Briant, will drive up with her.

Mr. and Mrs. C. D. Lester and son, Edward, and Mrs. E. E. White motored to Magnolia Sunday to visit friends and relatives.

Horace Jewell left Monday morning for the University of Arkansas, where he will study this year.

Harry Segnar left Sunday for Norman, Oklahoma, with his father, Mr. Harry Segnar, to enter the University of Oklahoma, as a senior.

Mr. and Mrs. Owen Nix and children have returned from a weeks vacation in Galveston, Ft. Worth, and other Texas cities.

Miss Hattie Richardson of Warren has arrived in the city for the winter and is domiciled at the White House. She is principal of Oglesby school.

Miss Ruth Andrews of Little Rock was the weekend guest of Miss Louise Hanagan.

Miss Mary Shull of Lonoke has arrived in the city and will live at the White House this winter. She is a member of the Hope public school faculty.

Mr. and Mrs. R. M. LaGrone Sr. have returned from a pleasant summer spent in Grand Rapids, Michigan.

Miss Mae Watkins of Dallas is the guest of the Misses Pearl and Ruth Polk.

Mr. and Mrs. Lee Hale Griffith left Sunday for their home in Seattle, Washington after a short visit with Mrs. Griffith's aunts, Mrs. W. W. Johnson and Mrs. Ada Swicegood.

Frank Howsen Jr. will leave Tuesday for Waco, Texas, where he will enter the freshman class at Baylor University.

J. R. Floyd and son, Joseph, left Monday morning for El Dorado, where Joseph will enter the public schools. Mrs. Floyd will join them next week and they will be at home at the Sample apartments.

Mrs. H. C. Whitworth and daughter, Miss Mary Evelyn, have returned from Benton, where they spent the week with Mr. Whitworth.

Miss Sara Ann Holland left Monday for the University of Arkansas at Fayetteville, where she will matriculate this year.

Miss Clyta Verne Agge of Texarkana is the guest of her uncle and aunt, Mr. and Mrs. C. M. Agee this week.

Ford Testing 6-Cylinder Car

But It May Not Be Introduced Until Later

DETROIT—(AP)—A subject of keenest speculation in trade circles at the moment concerns the six-cylinder engine Ford has had in the making for many months. The guessing general-

ly has it that the new motor is to be used to power a new kind of car to compete with anything other producers may introduce in the lower-priced field.

One widely quoted authority in the industry recently suggested that the new Ford six would not be brought until later in the 1941 model year. Still others have speculated on the possibility that the six-cylinder engine, already being produced on a limited scale at Dearborn, is to be made an optional installation in one of the regular 1941 Ford models.

This writer's guess, ventured hastily before the Wednesday's press preview imposes a fortnight of secrecy until the public showing is held, is that the six will not be brought out until around next January 1.

New Buicks Announced

New Streamlined Bodies Are Wider Than Ever

FLINT, Mich. — New streamlined bodies, wider even than the popular "torpedo" models, will be found in the 1941 Buick line, it was disclosed today by officials of the Fisher body division of General Motors, coincidentally with the announcement of new cars.

Outstanding among the new designs is the "sedanet," an entirely new body type that combines features of the coupe and the sedan, and represents these models in the special mid-century, or 40 and 50, series. From the side, this new "uniteel" body looks like an airfoil section. Gone completely is the break in line between the body proper and trunk of each model; gone, too, is any semblance of the rear deck to which the public has become so accustomed in coupes. The solid steel roof flows in a single, gently sweeping curve from the windshield to the rear bumper.

Sides are curved similarly from the front end to the tapering rear. The extent to which the tapering of the sedanets has been carried, Fisher officials point to the fact that the safety plate glass in the rear window is curved in two directions to conform to the body contours, and that all hinges, as well as the running boards, are fully concealed.

Accommodations for rear-seat passengers are all that could be desired. The rear seat is full-sized, with the cushion placed above the level of that in front, as in sedan models, to give the occupants an unobstructed view of the road.

Despite this, head room in the rear is 2 1/16 inches greater than in sport coupes of last year's corresponding series. There is also 7 3/16 inches more knee room. Further evidence of the remarkable roominess that has been attained is seen in the fact that the passenger compartment measures a full nine feet from the dash to the back of the package shelf that is provided behind the rear seat.

A luggage compartment, with a depth of more than 4 1/2 feet, is contained in the streamlined back.

Women Get 'Build-Up'

A good way to relieve periodic discomfort from functional dysmenorrhea due to malnutrition, such as headaches, nervousness, cramp-like pain, many women find is by using CARDUI. It usually sharpens appetite, increases flow of gastric juices, and so aids digestion, helps build resistance to periodic distress. Another way CARDUI may help you: Take it a few days before and during "the time." CARDUI has been popular for 50 years.

London Gets

(Continued from Page One)

other night of the longest air attacks ever launched against one city, spring to their posts.

The air ministry announced that 13 British planes were lost Sunday and Saturday night in the RAF's own mass raids against German shipping and continental objectives including Hamburg, a north sea port, where huge fires were started. British raiders also sought to demolish Nazi barges and boats concentrated on the French coast for movement of invading troops.

Huge Fires in London

BERLIN—(AP)—German bombers, guided to London by fires started previously, blasted the British capital anew in wholesale attacks Sunday night, the big home command reported Monday, and informed Nazis said that the destruction wrought so far is but a tenth of what is to come.

Telling of the damage done in their second big week-end raid on the world's largest city, the Germans admitted that the British themselves made "major attack" on Hamburg, Europe's largest port. They said the RAF rained bombs on the densely populated residential section and missed military objectives.

The high command said that formation of 35 of Germany's heaviest bombers, described as reserved exclusively for paralyzing blows on a special objective, headed for London early Monday morning with bombs of the "biggest and most destructive type."

Giant Bombers

BERLIN—(AP)—Germany loosed on London Sunday her biggest bombing planes laden with new "superbombs." Both the craft and the explosives are of the deadly type reserved exclusively for Nazi knockout blows on special objectives.

In these new smashes in a concentrated effort to give the English defenses a paralyzing shock, Germany obviously sought a quick showdown in the war. Everything indicated that the drive would be continued with relentless fury to the full extent of the Reich's powers.

Whether these heaviest of German bombs used so far constitute the storied "secret weapon" of Adolf Hitler was not disclosed.

(The Nazi shortwave radio in a German language broadcast heard in New York by C. B. C. said the newly used bombs are so powerful they destroy everything within a radius of 1,600 feet and "even human lungs cannot resist the terrific force of their explosion.")

"When Hitler said in the Sports-palast (last week) that he would erase London it was not a propagandistic expression, but as proven by this, it had a military character," the announcer concluded.

35 Planes

The midnight wave of the heaviest type bombers numbered about 35 planes. Returning German fliers reported extensive fires in London and that they "apparently had spread to some extent." In some instances, they said, smoke from their own bomb-set fires obscured targets.

Four-Motored Bombers

The largest German military plane of which there is any record is the Junkers JU 89. Powered with four 12-cylinder liquid cooled engines, it is rumored to have a speed of 225 miles per hour. Jane's All The World's aircraft, authoritative aviation manual of British origin, lacks other specifications for obvious reasons.

Jane's lists the JU 89's lower-powered commercial sister, the JU 90, as capable of carrying a 14,000-pound load—40 passengers and baggage. The JU 90 has a 115-foot wingspread and is more than 60 feet long.

Planes of this type—used to ferry soldiers to Norway—were reported seen over London last week.

Record Crowds at Tabernacle

Sunday School Hits High Mark of 615 Persons

Record breaking crowds attended the morning and night services at Hope Gospel Tabernacle Sunday.

The school reached a high mark of 614. The goal for next Sunday, Pastor J. E. Hamill announced, is 700.

Despite a new addition to the already large auditorium there was not sufficient space to accommodate the crowds that came for the Sunday night service. Extra seats and chairs were moved in to care for the overflow crowd.

Evangelist Carl W. Barnes, who is conducting a revival meeting at the Tabernacle spoke Sunday night on, "The Unpardonable Sin." Pointing out that he believed there were hundreds of people in Hope and vicinity committing this awful sin the sermon subject for Monday night is, "Men Or Grasshoppers." Tuesday night another great musical program will be rendered with a large group of singers and musicians participating and a sermon by the evangelist on "Narrow Seas and Short Covers." Wednesday night the sermon subject will be, "When May We Expect the Return of Christ?" Thursday night

EXTRA DISTANCE IN HIS DRIVES—EXTRAS IN HIS CIGARETTE

YES, LARRUPING LAWSON LITTLE, NATIONAL OPEN CHAMPION, PREFERS THE CIGARETTE THAT GIVES THE "EXTRAS"—SLOWER-BURNING CAMELS

● HOW does he do it? Form, timing, power, wrist action, control...he has them all—but Lawson Little has that extra measure of each which makes the difference between a good golfer and a champion golfer. Just as the extras in his favorite cigarette... Camel...make the difference between smoking and smoking pleasure at its best.

SMOKERS: SAVE AGAINST THE COST OF THE STATE CIGARETTE TAX

Smokers who live in communities where certain state cigarette taxes are in effect can save the cost of the tax—and, in some instances, more—through smoking Camels. (See panel below.) When you are a Camel smoker, you get this unique economy—and all the extra enjoyment of cooler, milder smoking—the fragrance and delicate taste of finer, more costly tobaccos.

- EXTRA MILDNESS
- EXTRA COOLNESS
- EXTRA FLAVOR

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested—slower than any of them. That means, on the average, a smoking plus equal to

5 EXTRA SMOKES PER PACK!

● WATCH OUT, PAR—here comes Little! No, Lawson Little is never content unless he can better par...in his golf...in his cigarette. "I want all the mildness I can get in my cigarette," he says. "Camels burn slower and give me extra mildness. And Camels also give me something else I never found before—flavor that doesn't tire my taste." Yes, Camels give all the qualities you want in a cigarette plus an extra measure of each. The extra flavor of costlier tobaccos preserved by slower burning. The natural mildness and coolness of costlier tobaccos plus freedom from the irritating qualities of too-fast burning. And on top of extra pleasure—extra value (see right).
